Filter Bag Replacement and Maintenance

1. Open top clean out door and cut the wire tie between the loop on the filter bag and the clip or eyebolt on the underside of the top of the vacuum.

2. Open the bottom clean out door and remove filter bag.

3. Install the new filter bag through the bottom clean out door.

4. Insert bottom ring:

   Pinch and Insert  Position Seal Ring  Release and Guide

Snap in Place

Great Seal:

Bad Seal:

5. Tighten wire tie to tension filter bag. This only needs to be snug. Do not overtighten.
